

# 3Ps of Small Business

## People, Processes, Products

... with small business advisor **David Le Sueur**

**Thursday 5 October ♦ 10.00—11.30am ♦ \$25**

Small and micro businesses need three strong pillars: the right people, great products and robust processes. If these pillars aren't working in harmony, business success may be impossible. Great products and services can only provide strong business outcomes if they're delivered by excellent people using clear processes.

In this workshop, strategic accountant David Le Sueur will discuss his approach for bringing the three pillars together to create a strong business that is ready for success. This workshop is designed for small and micro business owners, particularly those who are establishing a new business or thinking about ways to work more effectively.

**About David Le Sueur:** David has more than 30 years' experience in small business accounting and advice. He is senior business consultant and head of CFO services at Walker Hill Chartered Accountants, and until recently was senior partner with Tatnell DLS Accountants. David advises businesses on structure, setup, financial management and tax.

**Introducing the Small Business Series.** Northside Meetings' Small Business Series offers practical, realistic advice for small and micro businesses through seminars delivered by local business people. The series offers an opportunity to network with other small business owners and learn about small business practice in an informal, friendly, non-judgemental environment. We're not linked to any wider network ... there's no organisation to join and no hard sell, just realistic advice. If you'd like to be one of our speakers, please contact Judy Gregory by email at [info@northsidemeetings.com.au](mailto:info@northsidemeetings.com.au).
